Beechwood Employee Spotlight

Employee Spotlight David Snider

Project SEARCH invests in students with special needs who are in their last year of high school,

ages 18-21 years old, and teaches entry level skills to obtain competitive employment. Due to COVID-19, Project SEARCH of WNY was not able to operate within their workplace setting at Beechwood Continuing Care for a year-and-a-half. In the fall of 2021, the transition program was able to resume normal operations. David Snider, a student from Maryvale, was the first student to enroll in the resuming onsite program.

David Snider's family was reluctant to send him to Project SEARCH of WNY, a transition program, based at Beechwood Continuing Care skilled nursing facility in Getzville. They are now confident it was the right choice.

David began his first rotation in environmental services and operations department with a supplemental hand in dining services. This coming January, David will expand his knowledge to a more refined dining service experience. David works closely with a mentor who imparts their skills and forms a natural comradery working side-by-side. By June, David anticipates applying and interviewing for positions in and around his neighborhood.

To learn more about Project Search of WNY call John Pope at (716) 821-7017.
